Objective

I am in my second year studying Bachelor of Computing Systems at Unitec Institute of Technology. My peers will describe me as a passionate and determined individual. I believe education is not enough without practical experiences. As I am progressing through my computing pathway, I am seeking to gain industry experience in preparation for an Information Technology career.

Education

Unitec Institute of Technology

Bachelor of Computing Systems (July/18-Present)

New Zealand Certificate in Information Technology (February/18-June/18)

Beltei International School

Highschool Diploma (2017)

Projects

Customer Membership System (April/19-June/19)

- Using Java programming language
- GUI software created by using Swing and WindowBuilder in Eclipse IDE
- Encapsulation, File Handlings and Exception Handlings
- ArrayList and String Tokenizer to read and write data to files.
- *Source code:* <https://github.com/vBoBv/Java-Project>

Text-Based Console Game (September/18-November/18)

- Using Python programming language
- Taking input from the user and using functions to move player from one position to another
- A battle-scene using Array to display the health bar between the boss and the player
- Using loops to print the fight scene and to process the battle-scene
- *Source code:* <https://github.com/vBoBv/Python-Project>

Travelling Website (May/18-June/18)

- Using HTML/CSS/JavaScript and Bootstrap
- Responsible for the design and the architecture of the coding
- Scalable website compatible with Desktop and Tablet screen size
